

FINANCE ANALYST- SHORT TERM CONSULTANT

About Us and What We do

Clean Technology Hub is a pioneering hybrid hub for the research, development, demonstration and incubation of clean energy technologies in Africa, and their validation for commercial stage development. It is an early start-up incubator for inventions and innovations in clean energy, a consultancy for sustainability and energy efficiency solutions for organizations, and a driver of clean energy investment into Africa. Clean Tech Hub is focused on addressing Africa's energy poverty, increasing energy access through clean, renewable energy and sustainability.

Position Summary

Clean Technology Hub(CTH) is currently seeking an experienced finance analyst for short term consulting. The Finance Analyst will be responsible for tracking and reporting the company's financial performance against the business plan and analyzing business performance and market conditions for optimum growth. You will ensure that transactions impacting financial reports are properly monitored, controlled and posted to the general ledger in the proper period.

Location: Clean Technology Hub office in Abuja.

Responsibilities

- Design, implement, and maintain business metrics to measure performance against operational goals, identify emerging trends, and provide insights and recommendations for business growth and results.
- Monitor and forecast cash position, including working capital adjustments for receivables and payables.
- Build financial models, run scenario analysis, and provide data analytics to identify areas of risks and opportunities.
- Liaise with partners (banks and processors) to ensure optimal cost structures.

Clean Technology Hub

Energy Innovation Center

- Perform long-term strategic planning exercises including 3 statement financial modeling (balance sheet, income statement, cash flow statement) Liquidity management, budgeting, and cost control.
- Prepare cost-benefit analysis, financial projections, and models for projects and investments.

Qualifications

- University Degree preferably in Finance, Accounting, Economics and Business Administration or related financial analytical field
- Professional Qualification e.g ICAN, ACA and minimum of 5 years experience as a Financial Analyst.
- Experience with data visualization tools such as Tableau, Power BI, or similar platforms is an added advantage.

Language skills

- Strong ability to communicate clearly and effectively in conversation and writing in English.
