INSTRUCTIONAL DESIGN/CURRICULUM DEVELOPMENT- SHORT TERM CONSULTANT

About Us and What We do

Clean Technology Hub is a pioneering hybrid hub for the research, development, demonstration and incubation of clean energy technologies in Africa, and their validation for commercial stage development. It is an early start-up incubator for inventions and innovations in clean energy, a consultancy for sustainability and energy efficiency solutions for organizations, and a driver of clean energy investment into Africa. Clean Tech Hub is focused on addressing Africa's energy poverty, increasing energy access through clean, renewable energy and sustainability.

Position Summary

Clean Technology Hub(CTH) is currently seeking a curriculum developer responsible for designing, developing, and implementing learning solutions that empower our workforce and align with CTH's mission. You will supervise the development and production of all project-supported teaching and learning material. You will ensure training materials reflect our business needs and uphold the highest quality standards.

Location: Clean Technology Hub office in Abuja.

Responsibilities
- Create engaging learning activities and compelling course content that enhances retention and transfer.
- Work with subject matter experts and identify target learners' training needs.
- Create instructional end goals and create content that matches learners' straining needs.
- Visualize instructional graphics, the user interface and the finished product.
- Conduct instructional research and analysis on learners and contexts and apply tested instructional design theories, practice and methods.
- Decide on the criteria used to judge learner's performance and develop assessment instruments.
- Provide technical assistance for the dissemination of new policies and opportunities for feedback at all levels through workshops involving
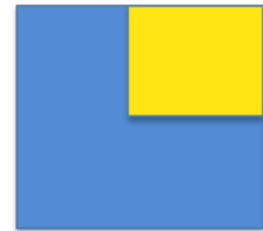

government, community meetings, paper publications and ongoing media campaigns.
- Maintain project documentation and course folders

Qualifications
- BA or MA degree in instructional design, educational technology or similar field.
- At least five years proven working experience in instructional design and with instructional technology: training programs, classroom monitoring protocols, tests and assessments required.
- Strong knowledge in Articulate 360 tools.
- Experience with Captivate, Articulate Studio/Storyline, Camtasia, Adobe Photoshop/Illustrator, Flash and Software technology like HTML, Javascript
- Strong knowledge of learning theories and instructional design models.
- Proficiency in learning management systems and e-learning platforms.
- Solid knowledge of course development software and at least one Learning Management System
- Visual design skills (Dreamweaver, Photoshop, Illustrator) and ability to storyboard.
- Ability to write effective copy, instructional text, audio scripts/video scripts

Language skills
- Strong ability to communicate clearly and effectively in conversation and writing in English.
