

CALL FOR APPLICATIONS

This is to announce the launch of the SheSustains Accelerator with the support of 2X Global Fund for Women-Owned businesses across Nigeria. The SheSustains project is an entrepreneurship acceleration program designed to support women-led and women-benefitting climate solutions in global emerging markets.

Clean Technology Hub with the support of the 2X Global Fund will implement the project. The challenge focuses on identifying, enabling, supporting and funding women-led startups that are building products/services to solve the climate crisis.

The solutions should address challenges across climate adaptation, climate mitigation, clean energy and sustainable agriculture. The startups must be Africa-focused and incorporated in Nigeria.

The 2024 cohort of entrepreneurs who go through the SheSustains accelerator program will receive:

- Expert advisory on ESG, Circular Economy and Sustainable Business Models.
- Coaching and mentoring by successful founders and experts.
- Networking opportunities.
- Access to a pool of investors.
- Equity-free funding totaling \$200,000.

Do you know any women led companies providing climate solutions in your network that would benefit from this accelerator program? Kindly encourage them to apply for the SheSustains Accelerator.

For any questions regarding the Accelerator, you are free to reach out to us at 2xglobal@cleantechnologyhub.org

We will be having an upcoming information session on **Tuesday, 26th March 2024, at 12- 2 pm WAT.**

This session will provide an excellent opportunity to learn more about the programme, understand its structure, and explore the benefits it offers. It's also a great chance to interact with the programme team and address any lingering questions you might have. Secure your spot by registering here: <http://tinyurl.com/4ytmpnhs>
